veery

HI RAM

9:13:07 am

HI VEERY

9:14:51 am

The screenshot shows a web-based messaging application with a clean, modern design. At the top, there's a header bar with the URL 'localhost:5173/groups/sdUDyPg1tt0OGURY459Z'. Below the header is a navigation bar with links for 'Dashboard', 'Groups', 'Communities', 'Feed', 'Notifications', and 'Profile'. On the far right of the header, there's a user profile icon for 'RAM' and a three-dot menu icon.

The main content area shows a group named 'ttt' with '3 members'. A 'Leave Group' button is located in the top right corner of this section. Below the group name, there are two message bubbles: one from 'veery' saying 'HI RAM' at 9:13:07 am, and one from 'RAM' replying 'HI VEERY' at 9:14:51 am. The messages are color-coded (blue for 'veery' and green for 'RAM').

At the bottom of the screen, there's a taskbar with various icons for Windows applications like File Explorer, Control Panel, and the Start button. The system tray on the left shows a battery icon with a red '1' indicating low power.

What's on your mind?
